

10 February 2018

To whom it may concern,

I release all rights to the GRAM Kracker and the MG Explorer and its technical documentation to the TI community. All interest in these two products and their artifacts were relinquished back to me by Mr. Craig Miller of Miller's Graphics. I expect no compensation from anyone who chooses to use that information to duplicate or reverse engineer the GRAM Kracker or MG Explorer, and expressly give my permission for any interested party to do so.

A handwritten signature in cursive script that reads 'D. Warren'.

Douglas C. Warren
