Dear Friends,

July 1983.

U.K. TI USERS NEWSLETTER 'TI\*MES'

At last we have produced our first Great British TI Users Newsletter TI\*MES, we hope you all enjoy its contents.

We shall be very grateful to receive in return your newsletters your comments, features and usefull hints and tips.

Our users Group has only just been established and we have a few Users programs on cassette tape but not enough to claim we have a Library, we would be thankful if you can help in anything that would benefit our membership, especially abosolute beginners on a low budget.

You will note that we exchange solid state software, this is very popular with our membership especially if they have a module that is no longer useful or grown tired of.

Heres looking forward to a long happy association with you all.

Kind regards

Clive & Audrey Scally

TI Users (U.K.)

P.S. If your members would like a newsletter sent direct it would cost £5 years subscription or £9 membership inc Newsletter + EXCHANGES
