November 20, 1986

Dear Fellow TI User:

Attached for your enjoyment, is the latest issue of our VAST 99 newsletter. We publish this newsletter each and every month and distribute it to our members plus several other users groups around the nation.

We are very proud to say that almost 95% of the material is written by our own members. We do not just copy items from other newsletters or magazines.

Our group of about 80 members in the Phoenix Az. area are very anxious to keep up an exchange of information with other groups so we can do our part in keeping the 99 alive. We are in the process of establishing a library of group newsletter from all over the nation and would very much like to include yours.

If you are interested in a monthly swap of newsletters please send us a copy of your latest edition. We will then place you on our regular mailing list and will continue to send you our newsletters as long as you send us yours.

Please feel free to use any of the material contained in the newsletter, just give credit where due and we will of course do the same.

Looking forward to hearing from you soon.

Sincerely,
Mike
