

DONKEY KONG*

The world's most popular video games can be yours to play at home, now that Atari makes them for the TI 99/4A. And the possibilities don't stop there. More compatible software will be available soon from ATARISOFT, including educational, management and productivity programs.

THE THRILL OF THE ARCADE GAME

You can feel an exciting tingle up and down your spine when you play DONKEY KONG at home, just like at an arcade. Your joystick guides Mario,* the fearless carpenter, up the girders and elevators as he attempts to rescue his sweetheart from the clutches of Donkey Kong. All the thrills of the arcade game in a home computer version for one or two players.
